

2006 Grower's Permission to be Posted on Idaho Weed Awareness Campaign Website

In the hope of making it easier for buyers of Noxious Weed Free Forage and Straw (NWFFS) to locate growers with available product, the Idaho State Department of Agriculture (ISDA), in conjunction with the Idaho Weed Awareness Campaign will maintain a web page listing of growers with NWFFS products. The web page includes: county where it was produced, name, phone number, email address, and forage type. The page is available at: <http://www.idahoweedawareness.org/weedfreehay.html>. In addition, please notify ISDA when your supply(s) of NWFFS is sold out by calling 208-332-8592, or emailing at dsafford@idahoag.us. The ISDA will remove your name from the website for that year. This should help customers avoid the frustration of making phone calls to growers who no longer have hay/straw for sale.

I have read the above information and agree to allow my name, phone number, and email to be used for the purpose stated above:

Name (Print)	Name (Signature)	Date
<hr/>		
Phone Number(s)	Email address	

In addition to the general listing of available growers, the ISDA, in conjunction with the Idaho Weed Awareness Campaign, will maintain a web page listing of growers with NWFFS products, including the nearest city where the bales will be stored. The reasoning for this addition is that ISDA received several phone calls similar to, "Where is the closest grower to my location?" With the county as our only location clue, we are unable to answer this question. Knowing the closest city to where the Noxious Weed Free Certified bales are stored will assist the customer.

I have read the above information and agree to allow my name to be associated with the nearest city to my stack yard for the purpose stated above:

Name (Print)	Name (Signature)	Date
<hr/>		
Nearest city where bales are stored
